

„Great news from Serbia“

Naturist Organization of Serbia – NOS managed to find suitable wellness centre in order to provide naturists of Serbia some quality time spent together during winter days. After years of struggling to succeed, against both denials and ignorance that NOS was facing, Royal Wellness Center from Belgrade opened their door and we made an agreement that our time at WRC will be every Friday evening from 21.00 to 23.00 hours.

The centre features 25 meters swimming pool with warm water, jacuzzi tub, steam sauna (Turkish bath), Russian sauna of 60° and Finish sauna of 90° temperature, salt room, a café for drinks with club tables and chairs.

On 20th April 2018, close to 50 naturists enjoyed a memorable naturist time and all of us promised that we will continue with the activity until summer days, and then, after summer break, we will be back there.

Besides regular hours, the centre is available for afternoon booking for various naturist events.

„Nude in the Museum“

There will be a nude visit at the Museum Palais de Tokyo at Paris in the near future. A naturist association in Paris has organized the visit - 161 interested people may roam through the museum without clothes.

(dpa) Art, totally nude: there will soon be a nude visit at a museum in Paris. A small group can roam in the Palais de Tokyo on 5th May. The well-known museum for Contemporary Art is located at the boarder of the Seine river, not far away from the Eiffel Tower. The naturist association of Paris ANP, which has organized the visit, speaks of a premiere in France.

The list of participants was complete within a very short time: "The 161 places had found customers within one morning, as for a Madonna concert", the vice-president of the association, Cédric Amato, told the newspaper "Le Parisien".

More than 28.000 people had shown interest in the event on the ANP Facebook page.

The nude visit will take place in the morning - outside the actual opening hours of the Palais de Tokyo, as a spokeswoman said on Thursday. The current season at the Palais de Tokyo is themed "Discorde, Fille de la Nuit" ("Discord, Daughter of the Night"). Among others, installations by the Franco-Algerian artist Neïl Beloufa are shown.

The Leopold Museum in Vienna had already offered nude visits some years ago, during its exhibition "Nude Men" those days.

„VII Latin American Meeting of Naturism“

Between the days 29th March and 1st April 2018, the Brazilian Federation of Naturism made the Seventh Latin Meeting American of Naturism, in a large site, called Paraíso das Cascatas, very near of the Brazilian federal capital.

by Pedro Ribeiro

The objective of the meeting was to ratify the creation of an association that would involve all the countries of Latin America, aiming at the development of naturism in these countries - whose roots were created in 2014 in the city of Punta Del Este, Uruguay, during the Fifth Latin American Meeting, with the name of ONEA (Naturist Organization of American States) for this same purpose - but it also needed the confirmation of the signatory members and approval of the statute.

The Seventh Meeting had as official representatives the Mexican Federation of Nudism, the Brazilian Federation of Naturism and the Argentine Nudo-naturism, which does not yet have a national federation formed. It also had the presence of North American naturists, who participated in assemblies as invited observers. The meetings reached the projected goals, with the ratification of the creation of the new entity that was named CLANUD (Latin American Nudism Confederation), replacing the previous name. It was decided that discussions on the statute that had been drafted would take place in subsequent virtual meetings, with the aim of reaching a larger number of representatives from other countries in the region.

In conjunction with ELAN, the Twelfth Brazilian Naturism Meeting was also held, the EBN, which had deliberative assemblies and the theme „30 years of FBrN“. The most visible result of the two events in at the same place and date was the extraordinary number of participants, about 120, who brightened with joy and fraternization the headquarters space, Clube Paraíso das Cascatas, managed by the host entity, Clube Naturista Planalto Central, or PlaNAT. The property has a guesthouse with more than 20 rooms, a camping area, a swimming pool with natural water from waterfall, hiking trails and rivers with other waterfalls in a lush landscape.

As if the natural attractions were not enough, the organizers of the event held themed dances every night. The collective lunch and dinner provided a harmonious and fraternal atmosphere. Was offered sightseeing tour of the city of Brasília. As well as a discussion forum open to all with current and worrying themes of Brazilian naturism: low frequency of children and teenagers and interference in naturism

by the increase of sexual practices in beach areas. There was also a talk with videos of the founder of FBrN, Celso Rossi and theatrical presentation with naturist actors.

After the four days of the event, it was certain that the objectives of the Meetings were achieved and already with expectation for the accomplishment of the next, in places not yet defined.

CLOTHING OPTIONAL

„Ireland opens its first legal naturist beach“

Catholic Ireland slackens. Since 1854 it was forbidden by law to undress in public. The legal norm has now been changed: in the vicinity of the Irish capital Dublin, nude swimming is now allowed for the first time at a designated place. Yet, the beach of Hawk Cliff does not turn into a pure naturist zone, but, at least, to the first beach in Ireland, where swimming and sunbathing without any clothes is now officially permitted.

But unofficial naturist beaches are already available in Ireland. In its website the Irish Naturist Association had published all 23 unofficial naturist beaches in the country and demanded a change of law for a long time. Its president Pat Gallagher told the newspaper "Independent" this is a "milestone for Ireland".

However, not all the people are happy with this new law. Residents of the neighbouring celebrity village Dalkey have already filed a complaint.

Celebrities like Bono, Enya or Van Morrison are living at that village.

„NATURISM“ OFFICIALLY PERMITTED

"We do not want to offend anyone. We just want to go there, lie in the sun, go into the water and swim, but then do not wear any clothes", said Gallagher, who expects a boom in tourism at the naturist beach.

With this change in the law, Ireland is one of the last European countries to officially allow the so-called "naturism". In Malta, beach fans still have to expect high fines when showing up "topless" at the beach.
